

EBRI SEMINARS 2026

March 20, 2026

Francesco Carlino, PhD
CEO Neural Research srl, Rome

*Il dialogo tra neuroscienze
e filosofia della mente*

April 2, 2026

Federico Cremisi, PhD
Scuola Normale Superiore, Pisa

*Brain in a dish: unlocking
the secrets of neural
network formation*

May 5, 2026

Alexei Verkhratsky, MD, PhD
University of Manchester, UK

*Astroglial pathophysiology:
from reactivity to atrophy
and functional asthenia*

June 9, 2026

Daniela Puzzo, MD, PhD
University of Catania, Catania

*Amyloid- β in the brain: hero
or villain?*

July 1, 2026

Gian Michele Ratto, PhD
CNR Institute of Biophysics, Pisa

*The mutable landscape of
[Cl⁻]_i in neurons modulates
neuronal processing in
visual cortex*

September 18, 2026

Rebecca Piskorowski, PhD
Sorbonne University & INSERM, Paris

*Delicious memories. A
hippocampal circuit for
remembering novel food*

October 8, 2026

Alessandro Cellerino, PhD
Scuola Normale Superiore, Pisa & Leibniz Institute on Aging, Jena

*From Africa to the Arctic
fishing secrets of brain
aging*

November 18, 2026

Michela Matteoli, Lincea
Humanitas University, Milan

*How the immune system shapes
synapses*

December 16, 2026

Gerhart Schratt, PhD
ETH Zürich, CH

*Non-coding RNAs in mouse
behavior and human brain
evolution*
